LIFTING THE HUMAN SPIRIT THROUGH SCULPTURE

In 87 years, Mother Teresa, or Mama Teresa, as I refer to her as, probably gave more love and provided more comfort to the super impoverished, caste-cursed, and downtrodden, than most of us will in many lifetimes! After reading of her doubts and questioning of even God, I realized she too was 'real'. Real in the sense of being practical and honest, not just idealistic. Who of us have not doubted and questioned God's mercy, his true allowance of suffering & debasement on our beautiful planet and to our beautiful sojourners? I certainly have – and I now look up to Saint Teresa as she looks up into the heavens, pondering, smiling, grateful! Grateful for this journey of discovery. Mama Teresa, I hope I have captured all of your concerns, empathy for humankind, and your true spirit.
