

# THE WRIGHT BROTHERS

## GARY LEE PRICE

LIFTING THE HUMAN SPIRIT THROUGH SCULPTURE

I have always been absolutely fascinated with Orville and Wilbur Wright and astounded how these two tightly-knit brothers changed the course of history and how they were able to finally ‘crack the nut’ that had mankind earthbound for centuries! Of course we all know that ideas and inventions build upon each other, but it was these two very unassuming Dayton, Ohio bicycle shop owners, with their practical knowledge of maneuverability and control, who surpassed all the previous dreamers and predecessors!

From that day forward not even our earth’s atmosphere would limit our reach ! The Wright Brothers – masters of ingenuity and truly, GREAT CONTRIBUTORS!
